MAHMOUD KHATTAB

QA/QC Manager | Roads & Infrastructure | Materials & Laboratory Quality

Dammam, Eastern Province, Saudi Arabia · +966 53 717 0297 · mahmoudkhattabfx@hotmail.com
mahmoudkhattabfx1.github.io · linkedin.com/in/mahmoud-khattab-qc · Saudi Council of Engineers Member – Geology Specialist

PROFESSIONAL SUMMARY

Materials and QA/QC professional with 12+ years of experience across Saudi Arabia and Egypt, including 10+ years in construction-materials quality for roads and infrastructure. Currently QC Manager with Gulf Roads Company. Experienced in reviewing material submittals and test results; developing, reviewing and verifying asphalt (Marshall and Superpave) and concrete mix designs; monitoring batching, asphalt-plant production and placement against approved mix designs; and running field and laboratory testing programs for soils, aggregates, bitumen, asphalt and concrete. Coordinates closely with contractors, consultants and laboratories to resolve material issues, investigate non-conformities and close corrective actions. ISO 9001:2015 Lead Auditor with ISO/IEC 17025 laboratory-quality training and working knowledge of ASTM, AASHTO and the Saudi Highway Code.

CORE COMPETENCIES

- Construction Materials Engineering
- Material Submittal Review & Approval
- Asphalt / HMA & Bitumen
- Marshall & Superpave Mix Design
- Concrete Mix Design & Technology
- Soils, Aggregates & Pavement Materials
- Batching & Plant Production Control
- Field & Laboratory Testing Programs
- ASTM / AASHTO / Saudi Highway Code
- ITPs & Method Statements
- NCR, RCA & Corrective Actions
- Equipment Calibration
- ISO 9001 & ISO/IEC 17025
- Contractor / Laboratory Coordination

PROFESSIONAL EXPERIENCE

QC Manager | Gulf Roads Company — Saudi Arabia | 2024 – Present

- Lead materials engineering and QA/QC for road and infrastructure works covering asphalt/HMA, bitumen, soils, aggregates, concrete, earthworks and pavement layers.
- Review material submittals, source approvals, test certificates and approval logs; coordinate sampling, inspections and approvals with clients, consultants, contractors and laboratories.
- Review and supervise asphalt and concrete mix-design development, trials and verification against project specifications, ASTM, AASHTO and Saudi Highway Code requirements.
- Monitor asphalt-plant production, approved-mix consistency, material-source compliance, sampling frequencies and laboratory/plant equipment calibration and readiness.
- Oversee field and laboratory testing, interpret results, investigate non-conforming materials and recommend and follow up technically sound corrective actions.
- Guide and train site and laboratory teams on sampling, testing procedures, documentation and specification compliance.

Quality Control Engineer | HAJCO — Saudi Arabia | 2022 – 2024

- Designed and supervised asphalt mix designs using Marshall and Superpave methods and monitored compliance during plant production, paving and compaction.
- Evaluated aggregates, cement and fresh and hardened concrete properties; prepared and reviewed concrete procedures for mixing, transportation, placing, curing and protection.
- Implemented and supervised laboratory and field QC testing for HMA, aggregates, concrete and construction materials.
- Oversaw calibration, readiness and QC checks of batch-plant and laboratory testing equipment per ASTM and AASHTO; prepared and reviewed technical reports.

Quality Control Engineer | KK Engineering Consulting Office Egypt | 2019 – 2022

- Directed laboratory engineers and technicians in sampling, inspection and construction-materials testing.
- Reviewed contractor test reports, quality documentation and acceptance records; identified non-conformities and recommended corrective solutions.
- Prepared Method Statements and Inspection and Test Plans (ITPs); conducted special investigations into material failures.
- Planned and delivered training on material quality and testing standards.

Quality Control Engineer | El Soadaa Group Egypt | 2017 – 2019

- Developed asphalt and concrete mix designs in accordance with international and local specifications.
- Inspected crushers and production plants to verify aggregate quality, storage, mixing and production controls.
- Coordinated with consultants and third-party laboratories on material approvals and certifications; ensured laboratory equipment calibration.
- Conducted material failure analysis and proposed technical solutions; maintained test and approval records.

Quality Control Engineer | ECIRP – Egyptian Company for Investment Road Projects Egypt | 2015 – 2017

- Supervised sampling and testing of construction materials in accordance with contracts and project specifications.
- Managed material approval processes and verified conformity with approved samples; prepared daily reports on supplied and approved materials.

Mud Logger | ECS – Electronic Construction Services Egypt | 2014 – 2015

- Evaluated cutting samples, prepared geological and drilling reports, and maintained and calibrated logging equipment and sensors.

CERTIFICATIONS & PROFESSIONAL CREDENTIALS

- **ISO 9001:2015 Lead Auditor** – Quality Management System, Quality Academy (CQI & IRCA) | Dec 2020
- **Superpave Mix Design Training Certificate** – Ministry of Transport & Logistic Services, KSA | Aug 2024
- **Saudi Council of Engineers (SCE) Membership** – Geology Specialist | Feb 2024
- **ISO/IEC 17025:2017** – Competence of Testing; Laboratory Management System Internal Auditor; Control of Documents & Records; Understanding and Awareness | Dec 2022
- Integrated Management System Internal Auditing – ISO 9001/14001/45001 | May 2021
- Ensuring the Validity of Test Results Using Control Charts | Mar 2021
- The Role of Reference Materials in Laboratory Quality | Feb 2021
- General Industry / Construction Safety and Health – OSHA Standards | May 2020

EDUCATION

B.Sc. in Geology – Faculty of Science, Suez Canal University
Sep 2009 – May 2013 | Grade: Very Good
